

SAMPLE · DEMO ONLY · NOT A REAL CERTIFICATION

模擬文件 · 僅供 CAT.6 專題展示 · 非正式認證／稽核文件

Vulnerability Assessment & Penetration Testing

Demo Security Assessment Summary

Security testing program — not a certification

Report ID	DEMO-VAPT-CAT6-001
Assessment Date	2026-09-28 (demo generated date)
Assessment Scope	CAT.6 web application, APIs and hosting infrastructure (demo scope)
Methodology	Reference approach: OWASP Web Security Testing Guide, NIST SP 800-115 — demo description only
Tester	None — no test was performed

Finding Summary — Severity Distribution

SIMULATED DATA

Critical	0	SIMULATED DATA
High	2	SIMULATED DATA
Medium	5	SIMULATED DATA
Low	8	SIMULATED DATA

Findings & Remediation Status

SIMULATED DATA

ID	Severity	Finding (simulated)	Remediation status (simulated)
V-01	High	Outdated TLS configuration on test host	Remediated · retest pending
V-02	High	Missing rate limiting on login endpoint	Open
V-03	Medium	Missing Content-Security-Policy header	Remediated · retest pending
V-04	Medium	Verbose error messages	Open
V-05	Low	Cookie without SameSite attribute	Accepted (demo)

No overall pass / fail result is given. All counts, findings and statuses above are simulated for UI demonstration and are not the result of a real security test of the CAT.6 platform.

This is a CAT.6 project demonstration. It is not a real vulnerability assessment or penetration test report, and it is not a certification.

本文件為模擬的安全測試摘要，所有數據皆為 SIMULATED DATA，不代表 CAT.6 平台的真實測試結果，亦非認證。
